Art Unit: 2172:

DETAILED ACTION

1. This office action is in response to the amendment filed on October 20, 2003, which claims 1-141 are presented for examination.

Drawings

2. Applicants are required to furnish the formal drawings in response this office action. No new matter may be introduced in the required drawing. Failure to timely submit a drawing will result in **ABANDONMENT** of the application.

Claim Rejections - 35 U.S.C. § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

- (e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.
- 4. Claims 1-141 are rejected under 35 U.S.C. 102(e) as being anticipated by Scheuring et al., (hereinafter "Scheuring") US Patent publication no. 2002/0131565.

As to claim 1, Scheuring discloses a calendering system for a life management. Applicant should duly note that Scheuring defines contact by including such information as type of living organism,

Art Unit: 2172:

individual relationship, emotion relationship and time shown to the contact when the contact wants

to schedule an event with the user ([0065]). Scheuring discloses the claimed "retrieving dynamic

contact records for a plurality of entities from one or more systems representing a dynamic contact

information service" as determining if it is acceptable to authorize an invitation by looking up

preferences set by a user which allow to automatically schedule events in response to invitations

([0027], [0062], [0066]-[0069], [0070]); and "providing dynamic contact records to one or more

status servers" as notifying the inviter of the acceptance and adding the event to the user's calendar

by updating the database to reflect the newly scheduled event ([0062], [0074], [0075]).

As to claim 2, Scheuring discloses the claimed "establishing the dynamic contact information service

that provides dynamic-contact records for said plurality of entities, each one of said dynamic-contact

records being dynamically updated to indicate current contact information for one of said plurality

of entities" as adding the event to the user's calendar by updating the database to reflect the newly

scheduled event ([0062], [0074], [0075]).

As to claim 3, Scheuring discloses the claimed "analyzing a calendar; determining a plurality of

periods of time" ([0062]); "associating a start time and a stop time with each of said plurality of

periods of time" ([0080], [0086]); and "associating dynamic contact information with each of said

plurality of periods of time, said dynamic contact information being dynamic contact information

Art Unit: 2172:

derived from said calendar, preferences, and directory information for one of said plurality of entities"

Page 4

([0074], [0080]).

As to claim 4, Scheuring discloses the claimed "including within each said dynamic contact

information a current telephone type, current telephone status, current telephone number, current

telephone status time period, office telephone number, voice-mail status, and voice-mail checking

frequency information for one of said plurality of entities associated with each said dynamic contact

information" ([0076],[0078], [0085]).

As to claim 5, Scheuring discloses the claimed "including within said current telephone status an

indication of whether the current telephone is busy" ([0076]-[0078]).

As to claim 13, Scheuring discloses the claimed "including within said dynamic contact information

an indication of an alternate contact person for said one of said plurality of entities" ([0065]).

As to claim 14, Scheuring discloses the claimed "determining a current time; determining one of said

plurality of periods of time having a start time at or before said current time and a stop time after said

current time"([0080], [0086]); and "creating a current dynamic contact record using the current

contact information associated with said one of said plurality of periods of time updating said status

server with said current dynamic; contact record"([0062], [0074], [0075]).

Art Unit: 2172:

As to claim 15, Scheuring discloses the claimed "establishing a status system, including at least one

status server to serve as said status server and at least one client"([0027], [0062], [0066]-[0069],

[0070]); "specifying for each client a second plurality of entities for which the client subscribes to

automatic updates of dynamic contact information" ([0062], [0074], [0075]); and "sending, using said

status server, each said current dynamic contact record to each said client that has subscribed to

updates for the entity whose dynamic contact information is contained in said current dynamic contact

record" ([0027], [0062], [0066]-[0069], [0070]).

As to claim 16, Scheuring discloses the claimed "filtering fields of each current dynamic information

record in accordance with "who can see me" information in said current dynamic contact record and

only sending allowed fields to said clients" (col.).

As to claim 17, Scheuring discloses the claimed "displaying at a client, information for a plurality of

entities from said current dynamic contact records" ([0060]).

As to claim 18, Scheuring discloses the claimed "displaying said information including within said

display a current telephone type, current telephone status, current telephone number, current

telephone status time period, office telephone number, voicemail status, and voice-mail checking

frequency information for each of said second plurality of entities" ([0060], [0063], [0080], [0023]-

[0025]).

Art Unit: 2172:

As to claim 19, Scheuring discloses the claimed "displaying said current telephone status at said client using icons" ([0077]-[0080]).

As to claim 20, Scheuring discloses the claimed "displaying said information including within said display an indication of whether said current telephone is busy" ([0077]-[0080]).

As to claim 21, Scheuring discloses the claimed "displaying said current telephone status at said client using icons" ([0077]-[0080]).

As to claim 22, Scheuring discloses the claimed "displaying said information including within said display an indication of whether said current telephone is currently in service" ([0077]-[0080]).

As to claim 23, Scheuring discloses the claimed "displaying said current telephone status at said client using icons" ([0077]-[0080]; [0059]).

As to claim 24, Scheuring discloses the claimed "displaying said information including within said display an in-person status, in-person status time period, and physical location for each of said second plurality of entities, said physical location being a location where said each of said second plurality of entities can be found" ([0027], [0028]-[0037]).

Art Unit: 2172:

As to claim 25, Scheuring discloses the claimed "displaying said current in-person status at said client

using icons" ([0028]-[0037]).

As to claim 26, Scheuring discloses the claimed "displaying said information including within said

display a wireless-messaging status, wireless-messaging address, and wireless-messaging time period

for each of said second plurality of entities, said wireless-messaging address being a

wireless-messaging address at which said each of said second plurality of entities can be reached by

wireless messaging" ([0055]; [0069], [0070]).

As to claim 27, Scheuring discloses the claimed "displaying said current wireless messaging status

at said client using icons"([0055]; [0069], [0070]).

As to claim 28, Scheuring discloses the claimed "displaying said information including within said

wireless-messaging status an indication of whether the wireless-messaging device with said

wireless-messaging address is currently in service"([0055]; [0069], [0070]).

As to claim 29, Scheuring discloses the claimed, "displaying said current wireless messaging status

at said client using icons"([0055]; [0069], [0070]).

Art Unit: 2172:

As to claim 30, Scheuring discloses the claimed "displaying said information including within said display an instant-message user name, instant-message status, and instant-message time period for each of said second plurality of entities, said instant-message user name being an instant-message user name at which said each of said second plurality of entities can be reached via an instant-messaging service" ([0027]; [0030]-[0035]).

As to claim 31, Scheuring discloses the claimed "displaying said current instant messaging status at said client using icons"([0027]; [0030]-[0035]).

As to claim 32, Scheuring discloses the claimed "displaying said information including within said display an e-mail address and e-mail checking frequency information for each of said second plurality of entities" ([0027]; [0030]-[0035]).

As to claim 33, Scheuring discloses the claimed "displaying said information including within said display an indication of a best current means for contacting each of said second plurality of entities" ([0027]; [0030]-[0035]).

As to claim 34, Scheuring discloses the claimed "displaying said information including within said display an indication of an alternate contact person for each of said second plurality of entities"([0027]; [0030]-[0035])...

As to claim 35, Scheuring discloses the claimed "displaying said information in response to selecting said one of said second plurality of entities" ([0027]; [0030]-[0035]).

Art Unit: 2172:

As to claim 36, Scheuring discloses the claimed "hovering a cursor over a name of said one of said second plurality of entities; and displaying a full status message" ([0060]-[0062]).

As to claim 37, Scheuring discloses the claimed "including in said full status message an in-person status, in-person status time period, a physical location, an email address, and e-mail checking frequency information, an office telephone number, voice mail checking frequency information, an indication of a best current means for contacting, and an indication of an alternate contact person associated with said one of said second plurality of entities" ([0085], [0065]).

As to claim 38, Scheuring discloses the claimed "hovering a cursor over a phone icon associated with said one of said second plurality of entities" ([0075]-[0080]); and "displaying a current telephone number, a current telephone type, current telephone status, current telephone status time period, office phone number, and voice mail checking information for said one of said second plurality of entities" ([0065], [0075]-[0080]).

As to claim 40, Scheuring discloses the claimed "hovering a cursor over an instant-messaging icon associated with said one of said second plurality of entities" ([0060]-[0062]); and "displaying an

Art Unit: 2172:

instant-messaging user name, instant-messaging status, and instant messaging time period associated with said one of said second plurality of entities" ([0060]-[0062]).

As to claim 41, Scheuring discloses the claimed "hovering a cursor over a wireless-messaging icon associated with said one of said second plurality of entities" (col.); and "displaying a wireless-messaging status, a wireless-messaging address, and a wireless messaging time period associated with said one of said second plurality of entities" (col.).

As to claim 42, Scheuring discloses the claimed "specifying display preferences for displaying said dynamic contact information including specifying portions of said dynamic contact information to be displayed and entities in said second plurality of entities to be displayed" ([0060]-[0061]).

As to claim 43, Scheuring discloses the claimed "formatting and displaying said dynamic contact information" ([0060]-[0061]).

As to claim 40, Scheuring discloses the claimed "displaying only portions of said dynamic contact information specified in the display preferences" ([0060]).

As to claim 40, Scheuring discloses the claimed "displaying information only for entities whose in-person status, telephone status, wireless-messaging status and instant-messaging status meet criteria specified in the display preferences"([0055]; [0069], [0070]).

Art Unit: 2172:

As to claim 6, Scheuring discloses the claimed "including within said current telephone status an

indication of whether said current telephone is currently in service"([0055]; [0069], [0070]).

As to claim 7, Scheuring discloses the claimed "including within said dynamic contact information

an in-person status and in-person-status time period, and physical location for one of said plurality

of entities, said physical location being a location where said one of said plurality of entities can be

currently located" ([0032]-[0039]).

As to claim 8, Scheuring discloses the claimed "including within said dynamic contact information

a wireless-messaging status, wireless-messaging address, and wireless-messaging time period for one

of said plurality of entities, said wireless-messaging address being a wireless messaging address at

which said one of said plurality of entities can be reached by wireless messaging"([0055]; [0069],

[0070]).

As to claim 9, Scheuring discloses the claimed "including within said wireless-messaging status an

indication of whether the wireless-messaging device with said wireless-messaging address is currently

service" ([0055]; [0069], [0070]).

As to claim 10, Scheuring discloses the claimed "including within said dynamic contact information

an instant-message user name, instant-message status, and instant-message time period for one of said

plurality of entities, said instant-message user name being an instant-message user name at which said

one of said plurality of entities can be reached via an instant-message service" ([0062], [0070]).

Art Unit: 2172:

As to claim 11, Scheuring discloses the claimed "including within said dynamic contact information an e-mail address and e-mail checking frequency information for said one of said plurality of entities" ([0025]).

As to claim 12, Scheuring discloses the claimed "including within said dynamic contact information an indication of a best, current means for contacting said one of said plurality of entities" ([0031]-[0036]).

As to claims 46-90:

Claims 46-90 are system to perform the method of claims 1-45. They are, therefore, rejected under the same rationale.

As to claims 91-141:

Claims 91-141 are computer program product to perform the method of claims 1-45. They are, therefore, rejected under the same rationale.

Conclusion

- 5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
- (A). Patent application publication no. US 2002/0046076, by Baillargeon et al on 04/18/2002. The subject matter disclosed therein is pertinent to that of claims 1-141. Baillargeon et al disclose an analogous system, including a multi nodal meeting planning system that provides tools and capabilities to allow persons involved in planning, supporting, or participating in a meeting to design and access the results of a group meeting.

Art Unit: 2172:

(B). US Patent no.6,636,888, issued to Bookspan et al., on 10/21/2003. The subject matter

therein is pertinent to that of claims 1-141. Kline discloses an analogous system for scheduling a

presentation that allows a user to seamlessly schedule, make changes, replace and reschedule a

presentation.
